Do not play on a road or a railway crossing.

Be careful of a car turning a corner at an intersection.

To foreigners

You may encounter an unexpected traffic accident because of the difference of life style or traffic rules. However, the basic rules are "stop/watch/wait/confirm." It is important to comply with these four basic rules in any traffic scenes. We would like all of the people of every age to know these rules and we hope that they spend safe and peaceful days in Japan.
